Hand-drawn sketch of a web application interface for a library system. The interface includes a header with "Library" and "Users" tabs, a sidebar with "Add", "Edit", and "Delete" buttons, and a main content area with a table of books. Annotations indicate the flow of data: "click to add" points to the "Add" button, "click to edit" points to the "Edit" button, and "click to delete" points to the "Delete" button. The table has columns for "ID", "Last Name", "First Name", "Title", and "Date Acq.". The "Add" button is labeled "Add", "Edit" is labeled "Edit", and "Delete" is labeled "Delete".
